

Abolfazl Samadi

Front-End Developer

Born in 2000

✉ a.abolfazlsamadi1378@gmail.com

☎ (+98) 935 9974 867

📍 Tehran / Karaj

Front-end developer with two years of experience and undergraduate degree in computer engineering.

Fluent in React.js/Next.js and other related technologies. Has the ability to effectively communicate with other teams and familiar with Agile methodology. Curious and interested in learning new technologies.

Experience

2024- Present

Freelance Front-end Developer

As a freelance frontend developer, I create responsive and engaging web interfaces using HTML, CSS, and JavaScript. Skilled in frameworks like React.js and Next.js, I deliver high-performance websites tailored to client needs with a focus on modern design and best practices.

2022 - 2024

Co-Founder & Front-end Developer

Predictor (from Diginext.ir portfolio teams)

Tasks and achievements

- ui/ux design of web pages in Figma
- Implementation and development of dynamic pages using Next.js
- Designing and implementing responsive pages compatible with different browsers using Tailwind
- Developing the dashboard using Chart.js, swiper.js,...
- Developing optimized pages for search engines

2021 - 2023

Graphic Designer

Sahand advertisement

public universities

Projects

Rently : Online space rental platform

Practical project with fake data

Description

Rently is an online space rental platform built with React JS and other modern web technologies. This project is similar to Airbnb and allows users to search and book apartments, houses, and other rental accommodations.

Project Status

This project is currently under development and is not yet complete. I am actively working on it and plan to add new features in the future.

Frameworks, Libraries and Tools

- Frontend development with **React JS**
- State management with **Redux**
- UI design with **Sass**
- API requests with **Axios**
- Creating interactive sliders with **Swiper**
